

GENESE

330W EC Direct Drive Motor

Product Info

Features

- Max.output power 330W
- IP55 Totally Enclosed Non Ventilated(TENV) design
- Sensor-less and field-oriented control (FOC).
- Supporting digital UART Communication
- 50/60 Hz compatible
- Multi-electronic protections
- Constant airflow or constant torque customizable
- Dual shaft available with external electronics
- Operating speed range from 350-1050rpm

Unit : Inches
